11 **Case study:**

School of management uses the scheme of weights which is shown below for evaluating the assignments given to students.

Question number	1	2	3	4	5
Weight	2	1	3	2	1

Each assignment will have five questions. Each question is evaluated in terms of grade A or B or C or D or E depending on the depth of discussion and correctness of its answer. The numerical equivalents of these grades are 5, 4, 3, 2 and 1 respectively. The minimum grade given to any of the questions is E. For a given student, in a given subject, if the grades given to the answers of the questions 1, 2, 3, 4 and 5 are A, C, D, E and A, respectively.

Find the weighted score and weighted grade of the given subject of that student using the grading scheme shown below:

Weighted score:	<1.5	1.5 – 2.4	2.5 - 3.4	3.5 – 4.4	4.5 – 5.0
Grade:	E	D	C	B	A
